Profile

I am a creative person with an affinity for technology, which is why I have focused my career on creating and implementing content and visual environments. I enjoy capturing attractive and functional ideas and working with a well-integrated team to bring them to life, be it online applications, websites or interactive games.

Professional experience

Charmed, 2008 - Ux / Ui design and layout, also I developed and maintain the internal scss framework used for the creation of digital products for educational companies as Santillana, Richmond and Cambridge among others. I animate, create 3D content and produce video too.

Unkasoft, 2005 - 2008 In charge of design and graphic production of the company, specialized in videogames for mobile, creating 3D, 2D and animated content for Televisión Española, Pepsi, Intermon, Pascual, Telefónica, Renault...

Gesein, 2001 - 2005 Design and layout developing the Seguridad Social intranet.

E-Loft, 2000 - 2001 Design and layout, developing the company's website, on-line tools and client apps.

Técnicas de Formación, 2000 Design and layout of webpages for the intranet and the web, and interactive CDs.

Abarrategui, Arquitectura y Urbanismo, 1999 Building engineer developing large-scale projects.

Contratas y Obras, 1997 - 1998 Building engineer also responsible for quality assurance processes on the construction site.

Antonio Moneo, 1997 Drawing of the façade plans of the Assicurazioni Generali building on Gran Via.
